Subject: ACTION: Hot topics for Administrator Visit to Bay Area - May 13-14
Attachments: AdministratorSantaBarbaraVisit_HotIssues.docx

Hi folks –

Happy Earth Day! Administrator McCarthy is scheduled to visit the Bay Area May 13 and 14, and I'm hoping you all can help pull together Hot Topics for the trip. Where possible, please update previous submissions for hot topics (!) and submit no more than half a page per item. Each entry should have information on background, recent actions and current status. **They are due to me by COB May 6 (please cc Abi, Suzanne and Fatima).** I've attached the hot topics from the Administrator's Santa Barbara trip in March for reference.

We are still working with HQ on the itinerary, but we know that the Administrator will be speaking at the CERES conference in San Francisco, visiting at least one tech firm in Silicon Valley and participating in the Hayward Clean Energy event celebrating 19 local agencies' aggregated purchase of solar power. We may pull together a drought/WaterSense event and she may also speak at the Commonwealth Club. Please keep this itinerary information close hold as it is subject to change.

Let me know if you have any questions and thanks!
Kelly
